

MARCH 18TH 2019

1ST IMPACT CHARITY GAME DINNER

Are you willing to get to know and support engaged NGOs in an innovative way?

We are looking for brave and generous companies willing to support and defend their favourite NGO in a challenge with other associations during a special evening dedicated to Social Impact projects.

A unique **fundraising** opportunity to gather valuable donations for the causes supported by selected **national and international NGOs** promoting **Social Impact projects**.

“The winner doesn’t take it all”

The **entirety of the profits** of the evening will be **donated to each association** and the winner will get an extra donation.

A few good reasons to participate

The Grand-Duchy is not just about finance and banking, and there's no better way to get to know what Luxembourg is actively doing to improve the lives of people, than through its associations.

How does the charity game dinner work?

- 1- One table per sponsor representing an NGO.
- 2- During the dinner, each sponsor will have a 5-minute speech to introduce the NGO he/she has chosen to support and defend the reasons why it should be the winner.
- 3- Participants will then vote the most engaging presentation and the NGO linked to the winner will receive an additional check.

Event promoted by
